

Accelerate Cloud-Based Desktops & Apps!

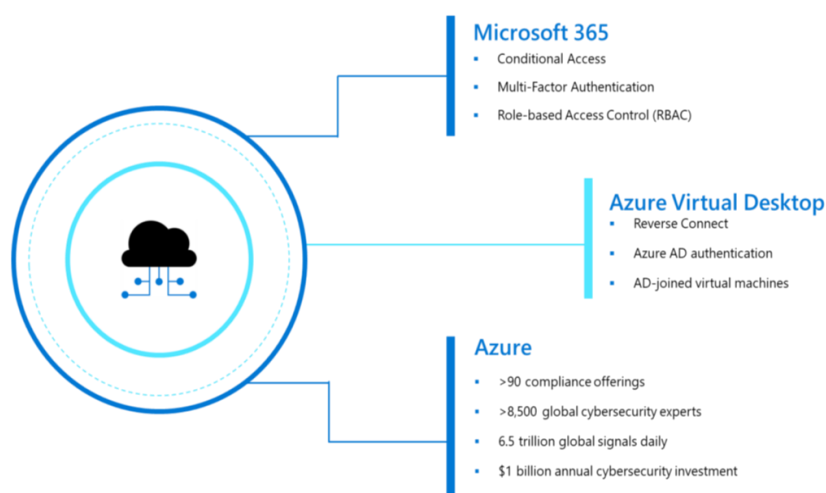

About Azure Virtual Desktop (AVD)

Azure and AVD offer several strategic benefits:

Blended security across the Microsoft ecosystem!

Reduce the need for costly hardware upgrades!

Streamline IT expenditures using a unified solution!

What we offer

Blended security across the Microsoft ecosystem, from MS 365 to Azure!

Lower Cost: Compared to other options, you could save between \$15 and \$25 per seat just on licensing alone, in addition to the savings from managing fewer Infrastructure and Networking components.

Made for Azure: Windows 10 /11 Multi-Session enables multiple concurrent sessions and is exclusively available on Azure, not on any other private cloud platforms.

Run AVD On-Prem: Are you looking to streamline your on-premises VDI deployment? Utilizing Microsoft Azure Stack HCI and AVD, you can access these options through a rapidly deployable, on-site solution.

Why Azure and AVD?

A significant 93% of Fortune 500 companies have already adopted Azure Cloud.

Why Microsoft 365?

Save your company money

Microsoft 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale your business quickly and flexibly

Microsoft 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business-critical technology on up to five PCs/Macs and five mobile devices. Microsoft 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical support

Your Microsoft 365 subscription comes with 24/7 support from a global network of experts, with one-hour response for critical, service-impacting events.

Financially backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service-level agreement.

Simplified IT management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.

-  Deliver the only multi-session Windows 10/11 experience.
-  Enable optimizations for Microsoft 365 apps for enterprise.
-  Migrate Windows Server (RDS) desktops and apps.
-  Deploy and scale in minutes.

Key use cases

Business-class email

Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

Cloud storage

Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

Meet online

Get actionable insights from your data by taking advantage of a fully compatible, enterprise-ready Hadoop service.

Collaborate, chat privately

Accelerate your mobile app development by using a backend hosted on Microsoft Azure.

Microsoft 365 is a cloud-based subscription service that brings together the best tools for the way people work today. By combining best-in-class apps like Excel and Outlook with powerful cloud services like OneDrive and Microsoft Teams, Microsoft 365 lets anyone create and share anywhere on any device.
